EXPERIENCE

Storacha Network - Community Manager

Oct 2025 – Nov 2025

- Acted as the primary support point for developers and users across Discord & Telegram
- Triaged product and integration issues, collected repro steps and logs & escalated to engineering
- Improved FAQs and documentation to reduce repeat questions and improve support quality

Moderator

Sept 2025

- Supported onboarding of new developers and users into the Storacha ecosystem
- Answered day-to-day questions around Web3 concepts, tooling, and platform usage
- Maintained a welcoming, professional support environment across community channels

Protocol Labs (PLDG) - Web3 Contributor

May 2025 – Present

- Contributed to Storacha Console tooling and demos using UCAN-based authorization flows
- Built and documented demo integrations to help developers
- Wrote technical blogs explaining Web3 concepts and project architecture for developer audiences
- Revamped Lighthouse [landing page](#) with a focus on clarity, UX, and developer onboarding - [Source code](#)

OPEN-SOURCE CONTRIBUTIONS

- **MindsDB:** Built a JavaScript SDK to simplify integrations with the MindsDB ML platform
 - **Instill AI:** Developed a JSON field-renaming tool in Go for schema migration workflows - [link](#)
 - Contributed frontend improvements and documentation fixes to DocsGPT, DevDisplay, and DesignDeck - [link](#)
-

PROJECT (Refer [Contra profile](#) or LinkedIn for quick look & feel of projects)

CopilotMate (Won Best Implementation award [link](#))

[Source code](#)

Next.js, CopilotKit AI, Tailwind CSS

- Built a personal assistant web app to streamline productivity with integrated AI features.
- Integrated Groq SDK and Llama 3 models.
- Developed intuitive and responsive UI with Tailwind CSS and component-based architecture.

Statify - [Landing Page & Dashboard](#)

[Source code](#)

Next.js, TypeScript, Tailwind CSS, Shadcn

- Design and develop modern, responsive landing pages that drive user engagement and conversions
- Utilize Next.js and TailwindCSS to create lightweight, SEO-friendly, and brand-aligned web pages
- Experience building functional, fast, and aesthetically pleasing landing pages for real-world projects, including Statify (metrics dashboard)

Cryptack - [live](#)

[Source code](#)

React.js, Chart.js, Framer Motion, Material UI

- Developed a live cryptocurrency tracker with real-time market data visualization.
- Implemented smooth animations and responsive layouts for enhanced user experience.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Rust
- **Frontend:** React.js, Next.js, Tailwind CSS, Shadcn, Framer Motion
- **Backend:** Node.js, Express.js
- **Web3:** Ethereum(Solidity) , Solana (anchor)
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Excalidraw, ChatGPT
- **Documentation & Support:** Technical writing, developer docs, community support, AI-assisted support workflows

EDUCATION

Thadomal Shahani Engineering College

B.E. in Artificial Intelligence and Data Science (2021-2025)

CGPA: 8.55
